

STAHL+BAND

LUMBER

Stahl and Band uses a curated collection of premium domestic wood in our pieces. Wood is a natural material and prone to variation from piece to piece. This includes color, texture as well as minor knots found in the wood. We celebrate these irregularities as a sign of authenticity of the material.

Our wood collection is split into two tiers based on the complexities in the finishing process.

Stahl and Band has the ability to match any finish on our pieces as long as we are given a physical sample
