

STAHL+BAND

MARBLE + STONE + ONYX

Stahl and Band uses a curated collection of Stone, Marble and Onyx. Each stone type has its own unique vaining and properties.

Since stone is a natural material there is expected to be variation of color, texture and pattern in each piece. There can also be slight cracking and chipping in the stone due to the nature of the material. All of our stone pieces have been sealed but with any piece proper and regular maitanence is necessary.
