FELSEN DINING TABLE  
*Specifications*

# FELSEN DINING TABLE

*Components*

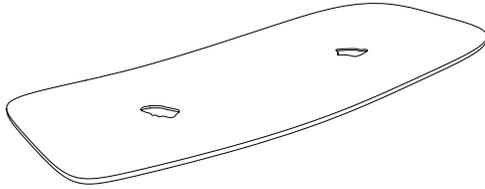

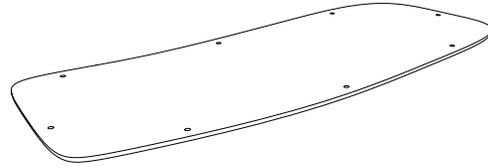

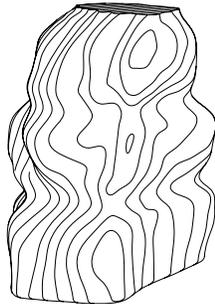

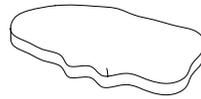

TABLE TOP

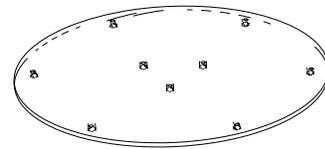

APRON

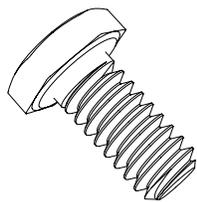

BOULDER X2

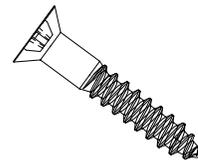

BOULDER CAP X2

STEEL PLATE X2

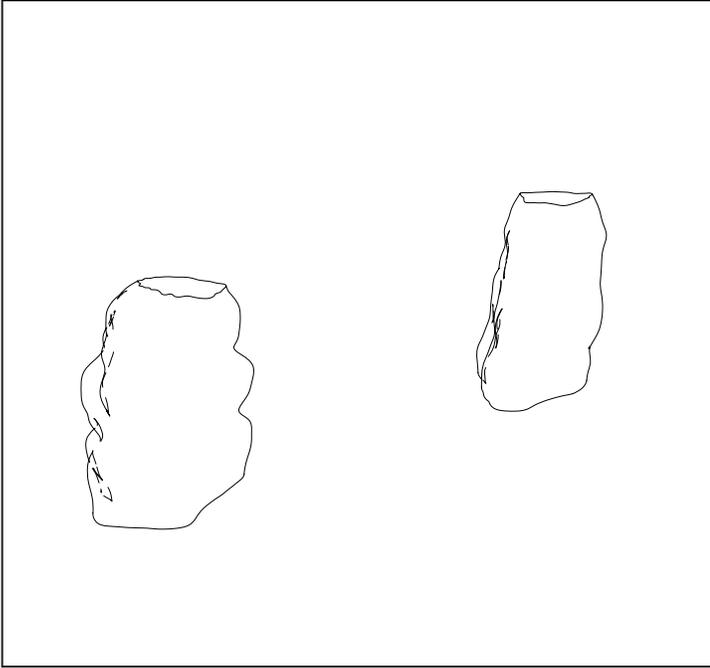

BOLTS X12

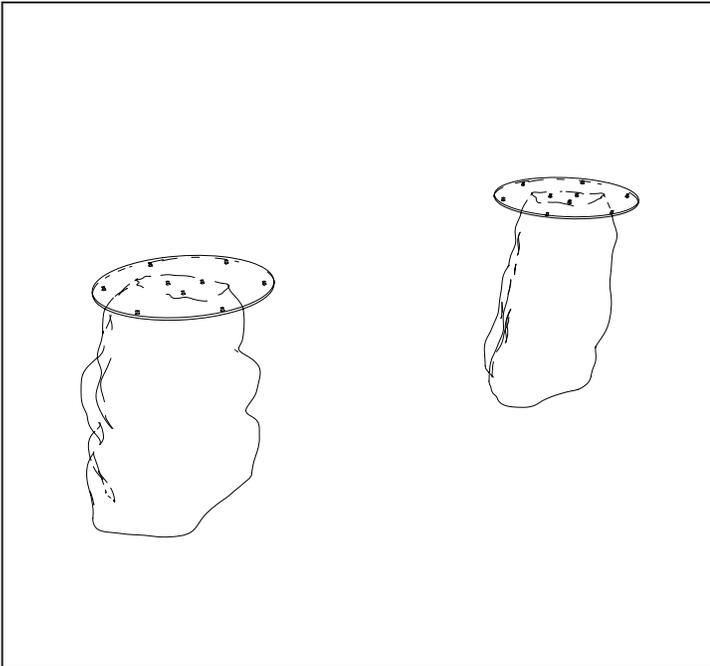

SCREWS

## Step 1

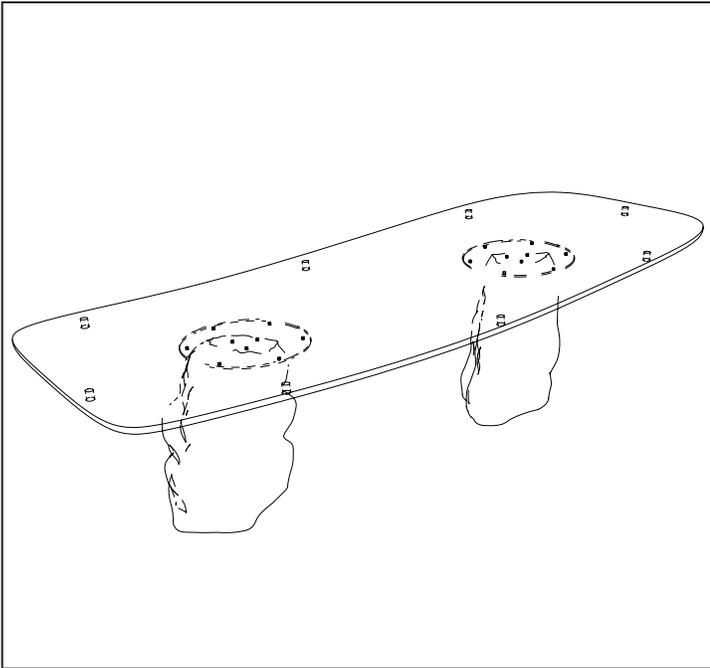

Identify the placement of the table. Measure distance between the centers of the steel plate cavities in the table apron. Use this measurement to place boulders accordingly. Boulders will require 2-3 people to move, a dolly is helpful as well.

## Step 2

Once boulders are set, screw the steel plates into the top of the boulders.

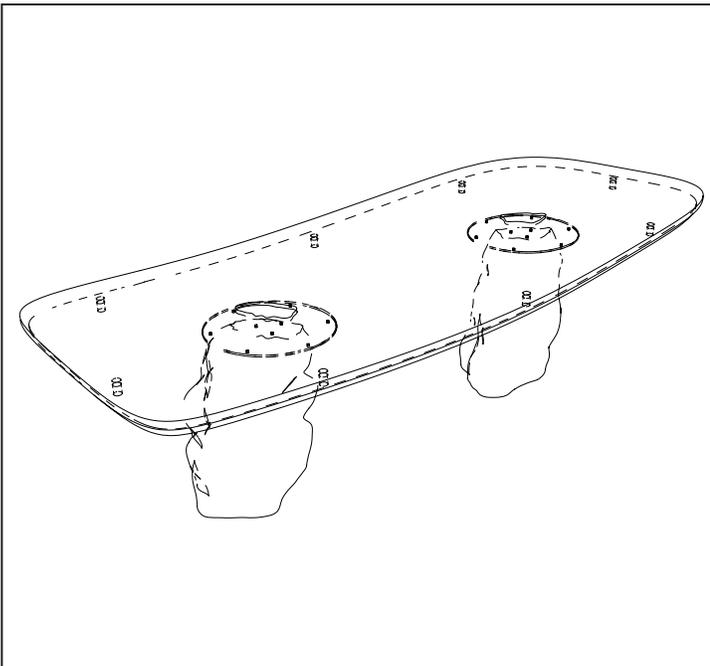

### Step 3

This step requires at least 2 people. Place table apron on top of boulders. Based on boulder placement, this may require some moving of boulders to ensure the steel plates sit flush in the cavities for the steel plates on the underside of the apron.

Once apron is in place, screw the apron to the steel plates from underside of table.

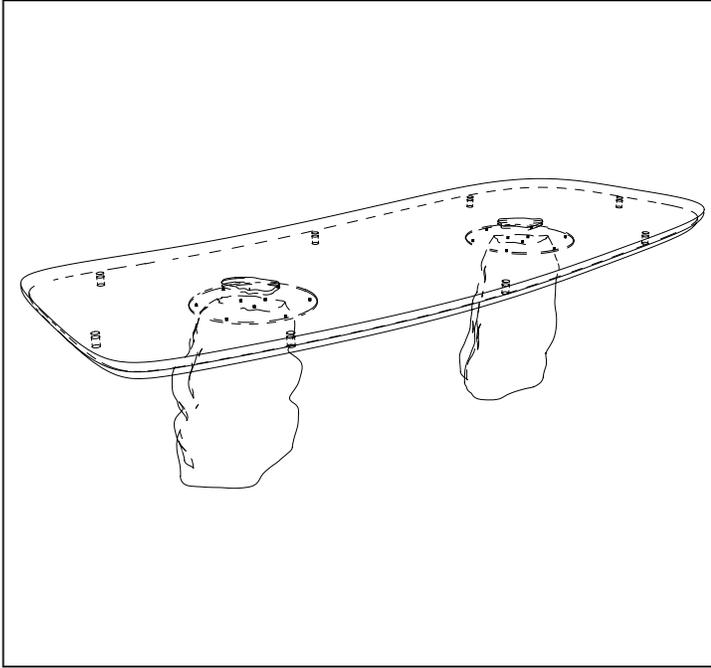

### Step 4

This step requires at least 2 people. Place table top on top of table apron. Ensure threaded inserts are aligned with holes on apron.

Once table top is in place, fasten to apron using provided bolts, washer and a socket wrench.

## Step 5

Place boulder caps into their cavities in the table top.

Once this is done installation is complete. Enjoy.
