Care Recommendations

- *Clean with care. Wipe using a soft, damp cloth. Avoid abrasive pads, harsh cleaners, or acidic products, as they may scratch or dull the finish.*
- *Protect the surface. Do not place extremely hot or wet items directly on the ceramic to prevent thermal shock or surface staining.*
- *Handle gently. Ceramic can chip if knocked or dropped—lift rather than drag when moving.*
- *Avoid prolonged moisture. If liquid is spilled, dry promptly to maintain the integrity of the finish.*
