Care Instructions

Never use scouring pads or abrasive cleaning solutions. If it comes in a bottle, its bad for your fixture. Instead, we recommend using soft microfiber cloths, which are gentler on our products and the planet.

Never use scouring pads or abrasive cleaning solutions. If it comes in a bottle, its bad for your fixture. Instead, we recommend using soft microfiber cloths, which are gentler on our products and the planet. For Metal: Wipe with a damp or dry microfiber cloth. Please note that our brass is unlacquered, and will darken naturally over time. For Glass: Wipe clear or colored glass with a damp microfiber cloth. For sandblasted or etched glass, use a dry microfiber cloth. Removable glass shades can be washed carefully in a sink using warm or hot water. For Ceramic: Wipe with a damp microfiber cloth. Do not submerge in water.

Notes

1. The canopy is 4 inches square and covers a standard junction box. We recommend notifying a professional drywall finisher of the tight tolerance for proper installation.
2. This fixture has handmade elements and may exhibit variability within the same piece. These variations are inherent in the production process and are not to be considered as defects.
3. Dimensions may vary within one inch.
