FALTEN SCONCE
Specifications

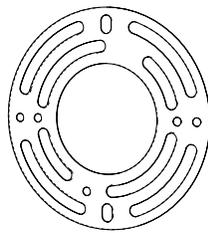

FALTEN SCONCE

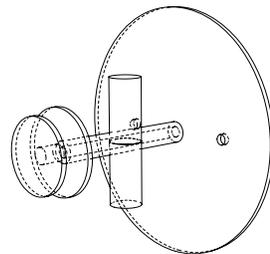

Components

SHADE

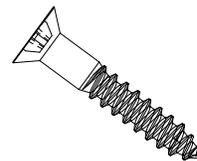

MOUNTING PLATE

BACKPLATE AND
SOCKETS

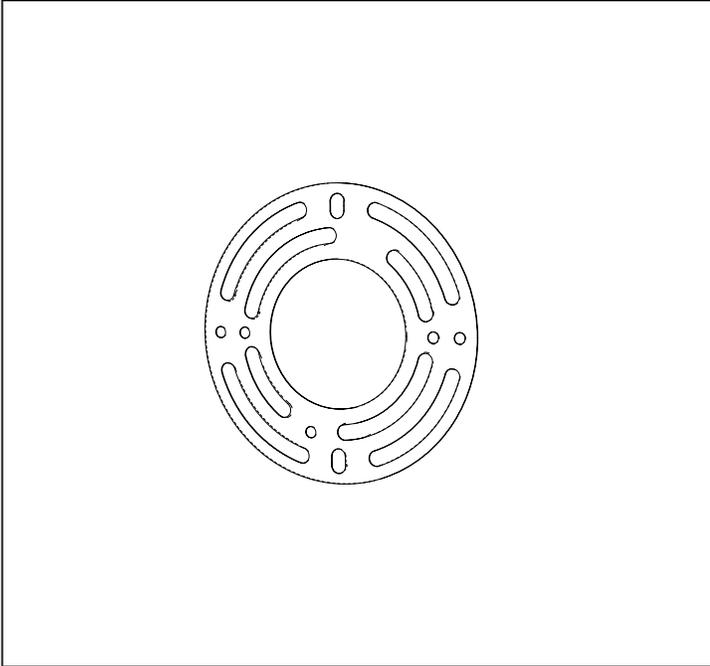

LIGHT BULB X2

SCREWS

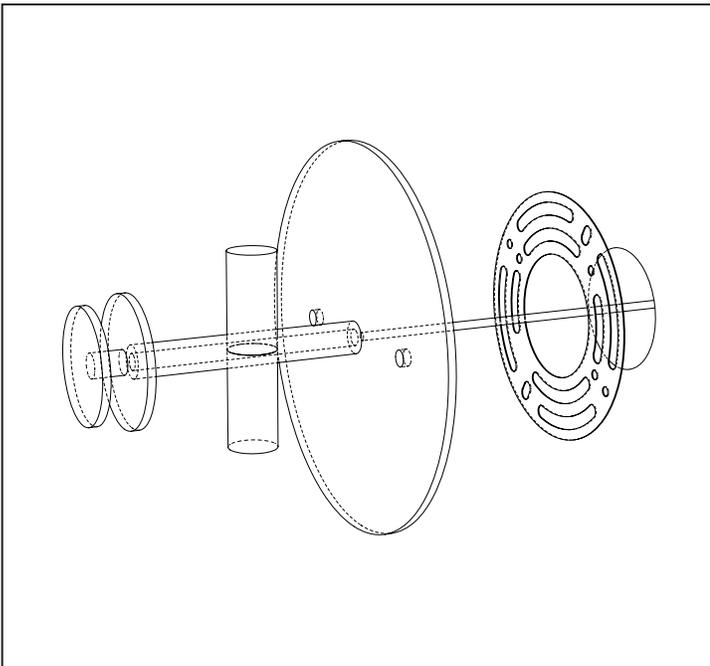

Step 1

Before install, ensure power is off in wall where sconce will go.

Select location for sconce. Hold mounting plate to ceiling and mark where you would like back plate to sit according to this. Once placement is good, screw mounting plate to wall.

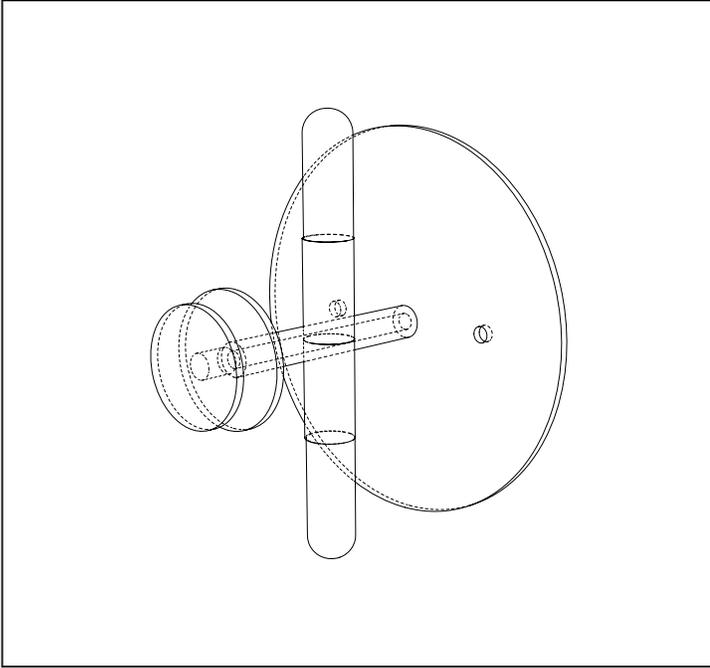

Step 2

At least two people are required for the next step. One person will hold the sconce while the other hardwires it to the wall. Once wiring is finished, screw the backplate to the mounting plate.

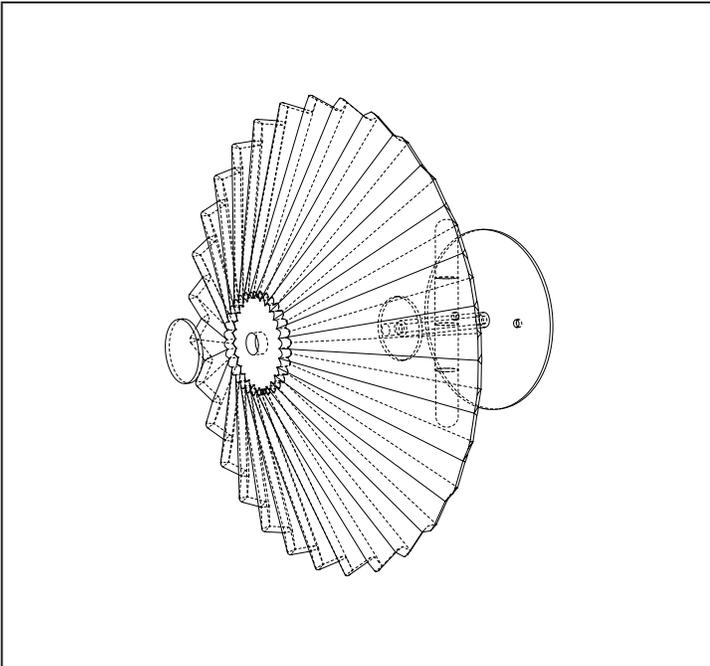

Installation must be completed by a licenced electrician and in compliance with all local laws and regulations.

Step 3

Once sconce backplate is secured into wall, screw light bulbs into sockets.

Step 4

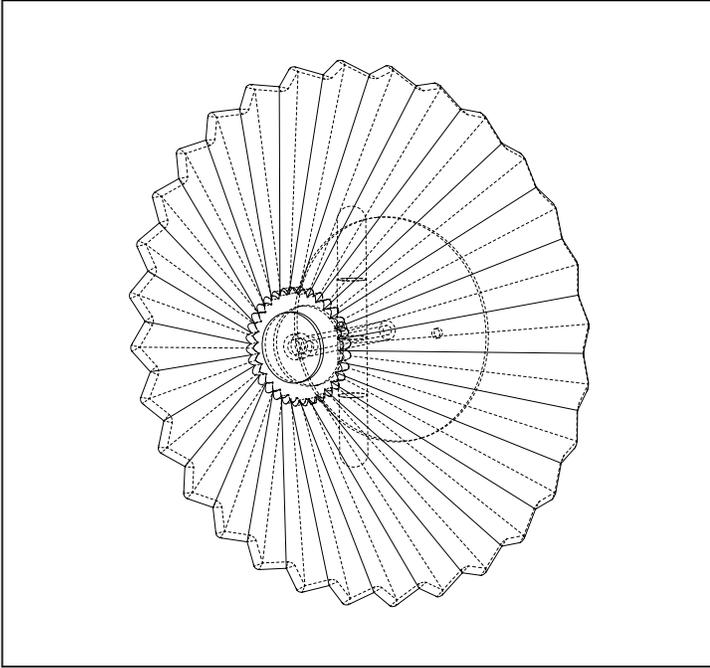

Unscrew front cap and place shade onto mounting system. Screw front cap back in to secure shade in place.

Installation must be completed by a licenced electrician and in compliance with all local laws and regulations.

Step 3

Installation complete. Enjoy.

Installation must be completed by a licenced electrician and in compliance with all local laws and regulations.
