Upon Request

** List pricing is subject to change and does not include shipping*

Care Recommendations

- Clean with care. Wipe using a soft, damp cloth. Avoid abrasive pads, harsh cleaners, or acidic products, as they may scratch or dull the finish.
- Protect the surface. Do not place extremely hot or wet items directly on the ceramic to prevent thermal shock or surface staining.
- Handle gently. Ceramic can chip if knocked or dropped—lift rather than drag when moving.
- Avoid prolonged moisture. If liquid is spilled, dry promptly to maintain the integrity of the finish.
