HEADBOARD PIECE

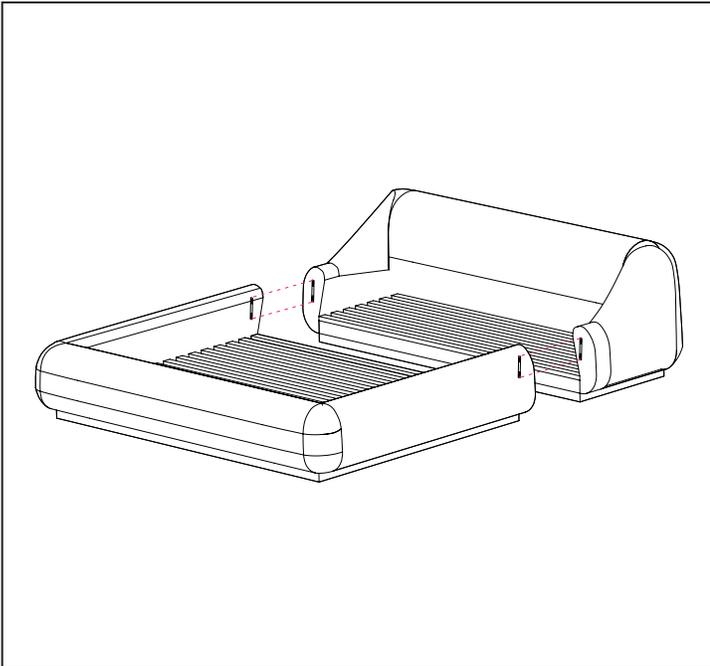

BASE PIECE

Step 1

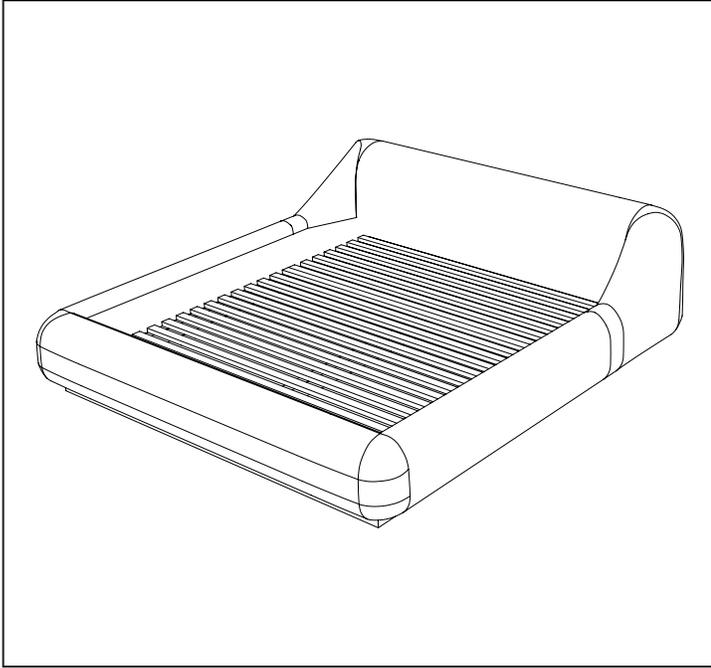

Locate where the bed frame will sit. Take the headboard piece and place it in the correct position. Take care while doing so, as it will be difficult to move the bed once the second half is attached.

Step 2

This is a 2-3 person job. Align base piece with headboard piece. Ensure the brackets are lined up on both sides of the bed. Once ready, bring the base piece to the headboard piece, place hooks into slots then press down to secure pieces together.

Step 3

Frame assembled, able to place mattress. Enjoy!
